# HELP OUR WILDLIFE

*Wildlife sponsorship program.*

*Look inside and find out H.O.W.*

*You can help wildlife on L.I. and this is H.O.W.*

Volunteers for Wildlife reaches thousands of Long Islanders each year. We care for nearly 1000 sick, injured or orphaned animals to our wildlife clinic. Our Wildlife Advisory Telephone service handles thousands of calls, and we reach another 15,000 people a year through education programs for schools, scout groups, libraries and public events. Our programs use live animals from our resident population, all unable to be released because of permanent damage.

Volunteers for Wildlife is a private, non-profit organization in existence for 25 years. We are supported through contributions of individual members, foundations and corporations. In addition, there are over 100 volunteers, more than 50 cooperating veterinarians, and an all-volunteer board of directors.

The mission of Volunteers for Wildlife is to promote conservation and preservation of Long Island wildlife and natural habitat through educational programs, wildlife rehabilitation and wildlife advisory services.

The Volunteers for Wildlife Hospital Clinic and Rehabilitation Center is located in Caumsett State Historic Park, in Huntington, New York.

Become a wildlife sponsor!

You, your organization, class, or family can help us feed and care for the animals that come into the clinic or the animals that need to stay with us permanently. Choose an animal you want to sponsor and your donation will go directly to the cost of food and care for that animal or group of animals. This is a great way to get a class or scout group involved in helping Long Island's native wildlife and habitats.

Check out the list of animals inside this brochure and see which animal you would like to sponsor!

# HELP OUR WILDLIFE ON LONG ISLAND! HERE'S H.O.W.!

## *H.O.W. to Be A Wildlife Sponsor*

You or your group can choose to sponsor an animal in Volunteers for Wildlife's permanent education animal collection or you may want to help sponsor a particular species of wildlife that comes to our clinic in need of care.

Your sponsorship will insure that those animals will get the best care we can give them here at Volunteers for Wildlife. Some animals may need to have surgery, x-rays or other expensive treatments. With your help, the animals in need of such treatments will be able to receive the level of care they need to recover.

Wildlife sponsorships can also be given as gifts! Recipients will receive a card notifying them of your gift. All wildlife sponsors receive a sponsorship certificate and a picture of the animal they are sponsoring. The name on the certificate will then be added to the Wildlife Sponsorship Thank You Board at our facility.

Current VW members receive a 10% discount.

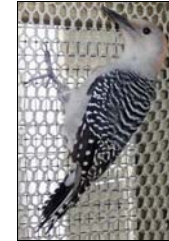

### PERMANENT RESIDENT WILDLIFE

Some animals cannot be released back into their wild homes and must stay with us to survive. We take care of them for the rest of their lives; which can be from 2 to 50 years! These animals help us educate Long Islanders about nature and wildlife. Taking care of these wild animals takes lots of time and money. Carnivores and other animals with special dietary needs are more expensive to care for than herbivores. Your sponsorship will help cover the cost of food, care and any therapy or treatments these animals might need. You can choose to sponsor an animal for a whole or half year.

Species	per year	1/2 yr.
American Oystercatcher	\$150	\$75
Red-tailed Hawks	\$100	\$50
Great Horned Owls	\$100	\$50
Barred Owls	\$100	\$50
Opossums	\$100	\$50
Diamondback Terrapin	\$100	\$50
Eastern Box Turtles	\$75	\$35
Eastern Screech Owls	\$50	\$25
Northern Saw-Whet Owls	\$50	\$25
American Kestrels	\$50	\$25
Mallard Ducks	\$50	\$25
Mourning Doves	\$30	\$15

### WILDLIFE CLINIC PATIENTS

Anyone can bring a sick or injured wild animal to our clinic for care. We do not charge a fee for our services. If the person can afford it, they may leave a donation to help with the cost of the animal's care. However, many people do not or cannot leave a donation. This is where you can help. Although the cost of treatment varies for each individual animal, we have calculated the average cost of treatment during an average stay at our clinic. The turtles spend the most time here, usually a year or more, recovering from their severe injuries.

Animal Family/Group	Average Cost of Treatment per animal
Native Turtles	\$100
Hawks	\$75
Owls	\$75
Falcons	\$75
Sea Birds	\$60
Shorebirds	\$50
Waterfowl	\$50
1 Brood of Ducklings	\$50
Baby Mammals	\$50
Adult Mammals	\$40
Baby Songbirds	\$40
Adult Songbirds	\$30
